SCOPE OF ACCREDITATION	
SCHEME DESCRIPTION	
<u>Type 1b Scheme</u> “Batch Certification” scheme. “Batch Certification” scheme is a product certification scheme which involves the certification of a whole batch of products, following selection and determination as specified in the scheme. The proportion of selected products will be tested on the homogeneity of the items in the batch following the required sampling plan where appropriate. If the outcome of the determination, review and decision is positive, all items in the batch may be described as certified and required the application of serial numbered label to the products. These labels have to be procured from SIRIM Berhad, record the usage and shall abide by the Intellectual Property Rights.

SCOPE OF ACCREDITATION	
SCHEME DESCRIPTION	
<u>Type 5 Scheme</u> “MS” Mark scheme. Conformity of product is assured by the following: Initial assessment: Selection and testing of one or more samples of a product representative of the production; Assessment of Manufactures Product Quality Plan; Assessment of Implementation of Manufacturer’s Product Quality Plan; One “Product Certification” license may cover many models / products that conform to those standards. On-going: Assessment of Implementation of Manufacturer’s Product Quality Plan; Scheduled and unscheduled market place surveillance i.e. selection and testing of samples from the marketplace.
