**SCHEME DESCRIPTION:**

**Type 6 Scheme**

Malaysian Sustainable Palm Oil (MSPO) Scheme
Conformity of the processes or activities to Malaysian Sustainable Palm Oil (MSPO) Supply Chain Certification Standard is assured by the following: -

**Initial Assessment:**
Documentation assessment of the standard operating procedures of the chain of custody system which covers management requirements and traceability of the production throughout the supply chain from raw materials to processing and manufacturing of palm oil and palm oil-based products.
Assessment on the implementation of the chain of custody system in terms of management requirements, traceability of the production, procedures and logistic records (which may include records provided by transporter, at the weighing bridge), purchasing and processing (includes physical separation from certified raw material and non certified raw material, traceability, production book keeping), packaging and labeling, product claim, sales and records keeping. (activities during initial assessment for SCCS).

**Ongoing/surveillance and /or recertification**
Assessment on the implementation of the chain of custody system in terms of management requirements, traceability of the production, procedures and logistic records (which may include records provided by transporter, at the weighing bridge), purchasing and processing (includes physical separation from certified raw material and non certified raw material, traceability, production book keeping), packaging and labeling, product claim, sales and records keeping. (activities during ongoing assessment for SCCS).
